

Semester X | Simulation X

Simulation Name

Date: 2/27/2026

Discipline: Nursing

Expected Simulation Run Time: 15-20 min

Location: Leesburg

Today's Date: 2/11/2026

Rooms: HSC 206/109

Semester: ASN 4

Guided Reflection Time: 30-40 min

Location for Reflection: HSC 208

Psychomotor Skills Required of Participants Prior to Simulation

- Tracheostomy Insertion
-

Cognitive Activities Required of Participants Prior to Simulation

- Click or tap here to enter text.

Clinical/Lab/Simulation Post Assignments:

- Click or tap here to enter text.

Simulation Learning Objectives

General Objectives

1. Practice standard precautions.
2. Employ strategies to reduce risk of harm to the patient.
3. Conduct assessments appropriate for care of patient in an organized and systematic manner.
4. Perform priority nursing actions based on assessment and clinical data.
5. Reassess/monitor patient status following nursing interventions.
6. Communicate with patient and family in a manner that illustrates caring, reflects cultural awareness, and addresses psychosocial needs.
7. Communicate appropriately with other health care team members in a timely, organized, patient-specific manner.
8. Make clinical judgments and decisions that are evidence-based.
9. Practice within nursing scope of practice.
10. Demonstrate knowledge of legal and ethical obligations.

Simulation Scenario Objectives:

1. Objective 1
2. Objective 2
3. Objective 3

Setting/Environment

☐ Emergency Department ☐ Medical-Surgical Unit ☐ Pediatric Unit ☐ Maternity Unit ☐ Behavioral Health Unit	☐ ICU ☐ OR / PACU ☐ Rehabilitation Unit ☐ Home ☐ Outpatient Clinic ☐ Other: Click or tap here to enter text.
--	---

Equipment/Supplies

Simulated Patient/Manikin(s) Needed:

Click or tap here to enter text.

Recommended Mode for Simulator:

Click or tap here to enter text.

Other Props & Moulage:

Equipment Attached to Manikin/Simulated Patient: ☐ ID band ☐ IV tubing with primary line fluids running at XX mL/hr ☐ Secondary IV line running at XX mL/hr ☐ IVPB with XX running at mL/hr ☐ IV pump ☐ PCA pump ☐ Foley catheter with XX mL output ☐ O ₂ ☐ Monitor attached ☐ Other: Click or tap here to enter text. Other Essential Equipment: Click or tap here to enter text. Medications and Fluids: ☐ Oral Meds: Click or tap here to enter text. ☐ IV Fluids: Click or tap here to enter text. ☐ IVPB: Click or tap here to enter text. ☐ IV Push: Click or tap here to enter text. ☐ IM or SC: Click or tap here to enter text.	Equipment Available in Room: ☐ Bedpan/urinal ☐ O ₂ delivery device: Click or tap here to enter text. ☐ Foley kit ☐ Straight catheter kit ☐ Incentive spirometer ☐ Fluids ☐ IV start kit ☐ IV tubing ☐ IVPB tubing ☐ IV pump ☐ Feeding pump ☐ Crash cart with airway devices and emergency medications ☐ Defibrillator/pacer ☐ Suction ☐ Other: Click or tap here to enter text.
---	---

Roles

☐ Nurse 1 ☐ Nurse 2 ☐ Nurse 3 ☐ Provider (physician/advanced practice nurse) ☐ Other healthcare professionals: Click or tap here to enter text.	☐ Observer(s) ☐ Recorder(s) ☐ Family member #1 ☐ Family member #2 ☐ Clergy ☐ Unlicensed assistive personnel ☐ Other: Click or tap here to enter text.
---	--

Guidelines/Information Related to Roles

Please prepare by reading the Elsevier Evolve scenario.

Navigation to Simulation Scenario Information

1. Link to login: [My Evolve - Evolve](#)
2. Navigate to Instructor-Led Course → Simulation Learning System (Click or tap here to enter text.)
3. In the left navigation panel under Course Content left click Simulation Scenarios (Implementation).
4. Click the assigned scenario folder (e.g., Health Assessment): Click or tap here to enter text.
5. Click the assigned scenario (e.g., Scenario 1-1 – Christina B. (Inpatient) Implementation Module): Click or tap here to enter text.
6. Click Open. Make sure your pop-up blocker is not activated.
7. From here you can navigate through information on the scenario using their online interface.
8. **If you prefer a packet:** Hover over the green Preparation tab and select Preparing Yourself. The blue Facilitator's Packet link will open a PDF of the assigned scenario.

Key Information to Review

- **Performance Objectives:** (Located under Preparation → Performance Objectives)
- **Report (SBAR):** This is located in the Facilitator's Packet under Patient Report.
- **Debriefing Procedure:** (Located under Debriefing → Debriefing Procedure). You may also find the Debriefing/Reflection Guide & Guided Discussion information helpful when determining areas for student learning.
- **Please also see** [Debriefing/Guided Reflection](#)

The Healthcare Simulation Standards of Best Practice™
<https://www.inacsl.org/healthcare-simulation-standards>

Pre-briefing/Briefing

Prior to report, participants will need pre-briefing/briefing. During this time, faculty/facilitators should establish a safe container for learning, discuss the fiction contract and confidentiality, and orient participants to the environment, roles, time allotment, and objectives. **Please introduce the simulator and its capabilities.**

For a comprehensive checklist and information on its development, go to <http://www.nln.org/sirc/sirc-resources/sirc-tools-and-tips#simtemplate>.

Debriefing/Guided Reflection

Note to Faculty:

We recognize that faculty will implement the materials we have provided in many ways and venues. Some may use them exactly as written and others will adapt and modify extensively. Some may choose to implement materials and initiate relevant discussions around this content in the classroom or clinical setting in addition to providing a simulation experience. We have designed this scenario to provide an enriching experiential learning encounter that will allow learners to accomplish the [Simulation Learning Objectives](#) spark rich discussion during debriefing. There are a few main themes that we hope learners will bring up during debriefing, but if they do not, we encourage you to introduce them.

Themes for this scenario:

- Theme 1
- Theme 2
- Theme 3

We do not expect you to introduce all of the questions listed below. The questions are presented only to suggest topics that may inspire the learning conversation. Learner actions and responses observed by the debriefer should be specifically addressed using a theory-based debriefing methodology (e.g., Debriefing with Good Judgment, Debriefing for Meaningful Learning, PEARLS). The debriefing questions for consideration are organized into the phases of debriefing, **as recommended by the Healthcare Simulation Standard of Best Practice™ The Debriefing Process**. The following phases are included below: Reactions/Defuse, Analysis/Discovery and Summary/Application. Remember to also identify important concepts or curricular threads that are specific to your program.

Debriefing Phase	Debriefing Questions for Consideration
Reactions/ Defuse	How did you feel throughout the simulation experience?
	Give a brief summary of this patient and what happened in the simulation.
	What were the main problems that you identified?
Analysis/ Discovery	Discuss the knowledge guiding your thinking surrounding these main problems.
	What were the key assessment and interventions for this patient?
	Discuss how you identified these key assessments and interventions.
	Discuss the information resources you used to assess this patient. How did this guide your care planning?
	Discuss the clinical manifestations evidenced during your assessment. How would you explain these manifestations?
	Explain the nursing management considerations for this patient. Discuss the knowledge guiding your thinking.
	What information and information management tools did you use to monitor this patient's outcomes? Explain your thinking.
	How did you communicate with the patient?
	What specific issues would you want to take into consideration to provide for this patient's unique care needs?
	Discuss the safety issues you considered when implementing care for this patient.
	What measures did you implement to ensure safe patient care?
	What other members of the care team should you consider important to achieving good care outcomes?
	How would you assess the quality of care provided?
	What could you do improve the quality of care for this patient?
Summary/ Application	If you were able to do this again, how would you handle the situation differently?
	What did you learn from this experience?
	How will you apply what you learned today to your clinical practice?
	Is there anything else you would like to discuss?

Additional Debriefing Objectives and Questions:

- Q1
- Q2
- Q3

Guided Debriefing Tool

The NLN created a Guided Debriefing Tool to provide structure from which facilitator observations can make objective notes of learner behaviors in simulation in direct relationship to the [learning outcomes](#). [Download the NLN Guided Debriefing Tool](#).
